Through your work at MC², you will:

- Develop an awareness of your individual interests, strengths, and talents to assist you in defining your post secondary options.
- Develop a strong perception of yourself as a learner, with the capacity and desire for independent, challenging learning and the willingness to learn from mistakes.
- Develop the desire, skills, and attitudes to be a responsible and active community member.
- Develop the intellectual and social skills and knowledge to support the accomplishment of the above goals.

Your application process is designed to help you be thoughtful about why you think MC² is the right school for you. Your application proposal is an integral part of the enrollment process. The proposal asks you to consider what you are setting out to do within the framework of your needs as a learner in terms of both your personal and your academic goals.

2. A letter of reference from a teacher (in school or out of school) or guidance counselor who knows you well.
